It is too simple. Feels and looks like a smartphone game at best. Shame :(

Some gameplay: <https://www.youtube.com/watch?v=o2Z0crUhDyU>. I played 30 minutes and that was enough. while the flying physics in the free flight mode are enjoyable, the levels are a total mess. the first level is easy enough, but the second level is horrible. you need to fly through the rings but you have a limited amount of fuel. the first plane doesn't have enough fuel, so I grinded the first level a lot to buy the second plane, that moved too fast to control! I personally don't recommend it unless you really really like free flight and exploration. to be fair, the animation and visuals are pretty good. (also the speed meter is really dumb. 300 kilometers per hour is 100 in-game metres per second).
